

15th Aug 2009:

Nvolve Release Version 3 of its market leading Blended LMS Response™

Nvolve Limited has seen a major increase in sales due to the release of Version 3 of the “Nvolve Response - Training Made Easy” solution.

Nvolve’s expertise and management software solution helps organisations meet their regulatory requirements when it comes to the management and reporting of training activities. These tasks are normally essential and/or critical for compliance purposes and management reporting, and are in most cases extremely time consuming, highly costly and distracting from core business activities.

The “Nvolve Response - Training Made Easy” solution enables companies to assess, record and manage all their training and regulatory compliance activities effortlessly, and report on the level of compliance at the click of a button. Implementation of the Nvolve Response solution results in a massive reduction in manual record keeping, hence delivering significant time and cost savings. The Response solution is also supported by a comprehensive list of training material ready to roll out direct to employees online or in a classroom environment.

Lee Tedstone, Sales and Marketing Director with Nvolve says “Due to the rapid growth in regulatory compliance when it comes to training there is an increasing cost and pressure on companies to comply with regulation on an ongoing basis. Our solution is helping many companies manage this process at a fraction of the time and cost of the traditional paper based or standard LMS approach. A selection of our clients such as Baxter Healthcare, Lifestyle Sports, Dublin Port, Moy Park and Smurfitt Kappa have all implemented the Nvolve solution and are seeing immediate benefits”

Nvolve Limited: Nvolve are a leading supplier of bespoke software services specific to their client’s requirements. Nvolve use ‘Agile’ Software Development methodology in conjunction with state of the art development technology to ensure that they provide clients with top class solutions. Nvolve have also developed and brought to market a range of products that help their clients reduce costs and improve performance within their organisations. These products includes GroupLearner™, PeopleManagerPro™, TeamWorkerPro™ and AudienceResponder™.
