

08th Jan 2010:

Nvolve's Software Services Chosen for Redevelopment of Fleet Mgmt System for SDCC

Nvolve Limited have been chosen by South Dublin County Council (SDCC) to undertake a redevelopment of a fleet management system. The Mechanical section of SDCC earlier has been using FMS MS-Access application. Nvolve proposed to migrate the existing FMS application to intranet application using latest ASP.NET with SQL Server 2005 technologies to facilitate multiple user environments and win the contract to proceed with the project.

The mechanical section maintains all the vehicles related information owned by the SDCC. The following are the features that the Fleet Management System incorporates:

- Repairs made on each job
- The jobs carried out on each vehicles
- Parts used on each job
- Services made on each vehicles
- All vehicles will be given to all the section so of the SDCC and the mechanical section keep tracks of these information and gets charges from every section in weekly, monthly, quarterly, annual periods based on the vehicle type.
- Costing modules helps the mechanical section to plan their budget for the next year based on the statistics of the current year.

The implementation of Nvolve's solution has saved SDCC time and money by Integrated SDCC's external applications such as Document Management System and Agresso from the Fleet Management System. Nvolve look forward to a lasting business relationship with SDCC and are currently working on other projects with them ensuring that their work processes are aligned with the correct technology in order to provide them with a cost effective solution.

Nvolve Limited: Nvolve are a leading supplier of bespoke software services specific to their client's requirements. Nvolve use 'Agile' Software Development methodology in conjunction with state of the art development technology to ensure that they provide clients with top class solutions.
